

DAY 4 - DYNAMIC FRONTEND COMPONENTS - MORENT CAR RENTAL WEBSITE

Rental E-Commerce Website

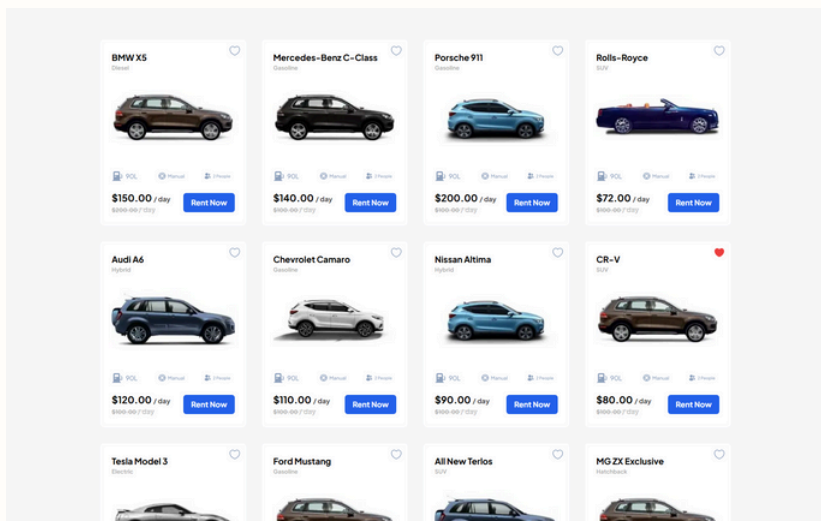

What functionalities i have implemented

Dynamically Showcasing Cars

Cars Listing Page

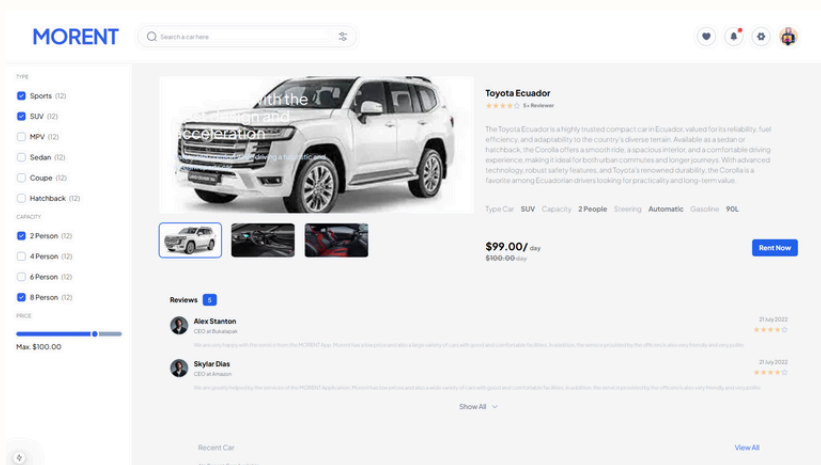

Users can scroll through a range of cars that are dynamically being fetched from sanity and being displayed to the user efficiently

Rendering Cars Details

Cars Detail Page

Cars details will be fetched from sanity as the user clicks on a car, the page will be redirected to that specific car's slug and i fetched that car from sanity using that slug and rendered data
